    from Wesleyan University

WORK EXPERIENCE

Web Developer and Designer, the Nomadik

San Diego, Remote | July 2020 - Present

- Use Javascript, jQuery, HTML, CSS, CrateJoy (SaaS), and GitLab to build user-friendly and responsive pages from scratch; currently improving the overall website design
- Manipulate data and create product feed files using Python/Django and set up an automated transfer to e-commerce partners using their FTP credentials
- Make different iterations of UI/UX designs using Figma and improve them after analyzing A/B testing results
- Create the Style Guide for the company that includes brand story, logo iterations, fonts, and color palette

Full-Stack Software Engineer Intern, Evealed Inc.

Remote | April 2020 - July 2020

- Used React/Javascript, Node.js, Express.js, Mapbox.js, MongoDB, and Axios to work on an electric vehicle trip routing app in a fast-paced Agile startup
- Built the full-stack electric vehicle charger queue system from scratch; designed the UI/UX, built the front-end and back-end, and set up tests
- Set up JWT login/session authentication tokens and Mapbox temporary tokens for application security
- Engaged in a weekly Sprint Planning and built/deployed my work via Heroku/AWS/Github for Friday demos

Designer and Creative Artist, Freelance

Seoul, Korea & Los Angeles, CA | July 2017 - Jan 2020

- Created custom clothing graphics for celebrity clients like Nick Young and Skyler Diggins-Smith
- Branded and designed logos, posters, and web/blog pages for musicians and groups like Beat Lab and KXLU
- DJed, produced, mixed, wrote, and/or made vocals for musicians including partywithray, Penthouse Penthouse, and Facebook Sound Collection
